

MARCUS WELLSTON never expected to inherit his father's title. After all, he is the youngest of three sons. However, his oldest brother Trevor is judged incapable of meeting the title's responsibilities, and his second brother Myles has lost his life in a freak accident; therefore, Marcus has returned to Tweed Hall and the earldom. Having departed Northumberland years prior to escape his guilt in his sister's death, Marcus has spent the previous six years with the Realm, a covert governmental group, in atonement. Now, all he requires is a biddable wife with a pleasing personality. Neither of those phrases describes Cashemere Aldridge.

CASHEMERE ALDRIDGE thought her opinions were absolutes and her world perfectly ordered, but when her eldest sister Velvet is kidnapped, Cashe becomes a part of the intrigue. She quickly discovers nothing she knew before is etched in stone. Leading her through these changes is a man who considers her a "spoiled brat." A man who prefers her twin Satine to Cashemere. A man whose approval she desperately requires: Marcus Wellston, the Earl of Berwick. Toss in an irate Baloch warlord, a missing emerald, a double kidnapping, a blackmail attempt, and an explosion in a glass cone, and the Realm has its hands full. The Regency era has never been hotter, nor more dangerous.
