You may be safe with your words, but your body language can betray what youre saying if you dont take control of it. See, by now you know that words are not the only way to communicate with people. Non-verbal cues also play a big part in the message you are trying to get across. These are the gesticulations, facial movements, and subtleties that communicate with the people around us. Excerpt: "Ever wondered how those psychics and fortune tellers can know so much about us? Its not because they have some super power, but rather because theyve mastered body language. They read us like a book and take highly informed guesses about our life." So much power can be gained in your professional life as well as your personal life, by being aware of the non-verbal cues you are giving and learning how to control them! Be it in a job interview, a meeting, at social or family gathering, or even on a date, it is important to be aware of your bodys language. This book will help you take control of your body language so you give the right cues, at the right time, to the right people.
