Applying FLASH Character Animation Studio Techniques will demonstrate how Flash can be used to construct high-quality, compact, vector-based character animations for display on the Web or other media. Through a series of task-oriented, hands-on procedures, this book will showcase each of the techniques available in Flash for creating character animations and displaying characters against dynamic backgrounds. Tweening, shape and color morphing, frame-by-frame animation, panning and zooming, sound synchronization, and other processes will be covered and explained through examples.
