

Somewhere in the temperate forest, a rabbit munches on some grass. An oak tree extends its branches to soak up the sun. A red fox pounces on an unsuspecting squirrel. These are all examples of a biome at work: each member of the community benefiting from another. The temperate forest biome is extremely diverse, with an amazing array of plants and animals. Come take a walk in the woods, and see how the land, climate, plants, and wildlife interact to make the unique temperate forest biome.
